ROTELLA ELC coolants are formulated to provide high performance protection for today's heavy-duty diesel engines. Today's modern engines demand effective heat transfer, freeze and boiling protection and corrosion protection for the cooling system.

- A high quality, extended life, nitrite free antifreeze/coolant (AFC) designed to meet the latest trend in commercial and diesel engines away from nitrated AFC. Nitrite free AFC improves protection of aluminum heat exchangers (radiators and heater cores). Shell ROTELLA ELC NF AFC is colored red to match many ELCs in the market today and based on the proven Shell ROTELLA ELC AFC technology.
- Shell ROTELLA ELC NF (Nitrite-Free) is ideal for mixed fleets because it is designed for use in commercial trucks, light duty trucks, and automobiles including many electric and hybrid vehicles. Always follow the vehicle owner's manual.

ROTELLA ULTRA ELC

Extended Product Description:

Next Generation OaT Extended Life, NAP-Free Heavy Duty Ethylene Glycol Engine Coolant premixed and Ready to use

Shell Rotella Ultra ELC Coolant Pre-Diluted 50/50 is an Extended Life Ethylene Glycol Coolant for Heavy Duty Diesel, Gasoline, and natural gas powered engines. Shell Rotella Ultra ELC Collant Pre-diluted 50/50 contains OAT corrosion inhibitor technology that provides effective corrosion protection of engine and cooling system metals. The product is free of nitrites, amines, phosphates, (NAP), borates and silicates. Shell Rotella Ultra ELC Coolant Pre-diluted 50/50 is suitable for both heavy and light duty applications without supplemental coolant additives (SCAs), making it ideal for use in mixed fleet applications. Shell Rotella Ultra ELC Coolant Pre-diluted 50/50 is premixed and ready to use. It requires no further dilution. In markets where Shell Rotella Ultra ELC Coolant Pre-diluted 50/50 is not available, use Shell HD Ultra ELC Coolant Pre-diluted 50/5

Intended Use:

Heavy duty diesel or gasoline engine antifreeze.

Shell Rotella Ultra ELC Coolant Pre-diluted 50/50 is formulated to be an extended life coolant in heavy duty applications, found in on-road, off-road, marine, farm, mining and construction equipment.
